EDUCATION

B.E MECHANICAL ENGINEERING

KGISL Institute of Technology, Tamil Nadu, India
2023-2027

SKILLS

- Design Tools:** SolidWorks (Part, Assembly, Drafting, Sheet Metal)
- Programming:** Javascript, Python (basic), Numerical Methods
- Other Tools:** GitHub, GrabCAD, Microsoft Office
- Soft Skills:** Problem-Solving, Communication, Attention to Detail

LANGUAGES

- English (Fluent)
- Tamil (Native)

CAREER OBJECTIVE

Motivated Mechanical Design Engineer specializing in SolidWorks and 3D CAD, with a focus on automation and robotics. Experienced in developing practical product designs and mechanical systems. Looking to join an innovative organization where I can contribute to the development of automated solutions and next-generation mechanical products.

PROJECTS

Mechanical Design Projects (SolidWorks)

- Wheel barrow** - Engineered for load balance and stability.
- Electric Motor** - Modeled as a single part to represent core geometry and housing structure.
- Bending Roller Machine** - Modeled for sheet metal forming with focus on roller alignment and mechanical strength
- V-block, Rubik's Cube, Tension Rod** - Demonstrated knowledge of constraints, assembly, and motion.
- Rotor Motor, Clamp** - Focused on mechanical movement and fit.

Programming Project

- Timetable Generator** (JavaScript) - Built a dynamic schedule planner based on constraints.
- Numerical Method Solver** (JavaScript) - Solved academic problems programmatically.
- Finance Tracker** (Python) - Automated expense tracking with file integration.
- CGPA Calculator** (JavaScript) - Customized tool for 2021 Mechanical curriculum.

INTERNSHIP EXPERIENCE

Elmech Automation, Coimbatore

- Completed a one-month internship focused on mechanical design and automation systems.
- Worked on part modeling, assembly, sheet metal, and drafting using SolidWorks.

CERTIFICATIONS

- SolidWorks Certification** - In Progress
- Coursera** (25+ certificates) - Topics include Design for Manufacturing, Engineering Mechanics, and CAD Fundamentals
 - Heavy Manufacturing process and system - L & T Edu Tech
 - Introduction to Thermodynamics: Transferring Energy from Here to There - university of michigan
